NTTG O1K Cost Allocation Compliance Work Group Meeting Summary of December 5, 2011	Page 2	We suggest that the Benefits measurements be based on engineering metrics so that they are transparent and easily replicated; They should measure who benefits at the time of investment.	1	UIEC 1	5/4/2012	NTTG is exploring metrics used in other transmission planning regions for measuring transmission benefits. These are being, and will continue to be, vetted with stakeholders for applicability to NTTG's planning and/or cost allocation processes. Continued stakeholder input on this topic is encouraged and appreciated.
