

# Energy Gateway

## Transmission Expansion Plan

### Plan Update Dec. 6, 2007

Details on the projected in-service dates and configuration for PacifiCorp's Energy Gateway transmission expansion plan is presented below. The Energy Gateway transmission expansion plan and its components are currently being evaluated within the regional planning and rating process by the Western Electricity Coordinating Council. For more information on the planning and rating process, please contact Darrell Gerrard, Pacific Power Vice President of Transmission System Planning at 503-813-6994.
